Why Hotel Guest Advertising?

The opportunity is bigger than you think

When hotel guests check in, they're ready to spend. They need restaurants, entertainment, shopping, and services — and they trust the hotel staff to point them in the right direction. That's where YOUR business comes in.

\$313

avg. traveler spend/day

78%

avg. hotel occupancy

1.7

guests per room

THE MATH IS SIMPLE

100 rooms × 78% occupancy × 1.7 guests × 365 days
= 48,000 guests per hotel, per year

Just 5 hotels in the WAT network
= 240,000+ guests per year looking for YOUR services

Up to 8–12 hotels in some markets
= 384,000–576,000+ potential customer impressions annually

WHY THIS AUDIENCE IS GOLD

- Captive audience — guests are away from home and NEED local recommendations
- High trust factor — hotel staff acts as a personal concierge and trusted advisor
- Ready to spend — travelers budget for dining, entertainment, and services
- No competition at home — your ad isn't buried among local competitors
- 24/7 access — the directory is at the front desk all year long

The average hotel guest spends \$313 per day
on local dining, shopping, and entertainment.

Questions & Answers

Everything business owners want to know

Q What does it cost?

A Advertising starts as low as \$795 per year — just \$66.25/month for year-round exposure to thousands of hotel guests. Rates vary by market and ad size.

Q How long is my commitment?

A Agreements are typically 1 year. Most clients renew because the results speak for themselves.

Q How soon does my ad appear?

A Approximately 30 to 45 days after all ads are received. Digital listings go live even sooner.

Q I already get business from the hotel.

A Great — the directory makes that even stronger. When hotel staff has your listing in hand, they recommend you more often and with more confidence.

Q My advertising budget is already spent.

A At less than \$67/month, this is one of the most affordable year-round options available — often less than a single newspaper ad. Many clients shift budget from less-effective channels.

Q I'm not sure about the ROI.

A Even 1-2 new customers per day from the directory means 365-730 new customers per year. What is each new customer worth to your business?

Q Why is this better than other advertising?

A Most ads reach people who aren't ready to buy. Hotel guests are away from home, actively looking for businesses like yours, and spending \$313/day on average.
